

Seeing the light Interactive Poster

אדרבה תן בלבנו שנראה כל אחד מעלת חברינו

By Torah Umesorah UK

Grade Levels:

Lower grades version

Higher grades version

Description:

Interactive wall poster helping your students' recognize the unique talents of themselves and their classmates

Materials Needed:

Printout of wall poster

or background and cut out of candles

Classroom Use:

Teach the students about having an עין טובה - seeing the light in their lives, and seeing the light in others too. Enable them to see the good in others and what their classmates have to offer. Empower them with the knowledge that each and every person has their own unique strengths and qualities to help them be the best version of themselves and make an impact in the world. They have a unique כח or talent and can use it to bring light to the world, as do their classmates. Use this discussion to promote אחדות in the class, understanding that every girl has what to offer and gives to the class just by being in it.

Each child should be given a candle and write a compliment about another student in the class on it. These compliments should be thought out and not superficial ones, complimenting their clothing etc. Put these candles on the wall display.
